PRODUCT DESCRIPTION

The Avide REMO touch panel floor lamp gives a modern and stylish look to any room, let it be at home or in the office. It is remote controlled and offers a variety of functions.

Thanks to its adjustable color temperature, we can set it to the mood and needs most fitting for us. You can switch from warm white (3000 K) to cool white color temperature (6000 K) in five steps, until reaching the desired brightness.

We can also set a timer for switching the lamp off (with 60 and 10-second timer options). The product also features a night light function. An indicator light placed at the touch panel of the lamp shows if this function is activated.

The light fixture includes built-in LED light sources that cannot be replaced in the luminaire. The LEDs have a 9W output. With a height of 1 meter and 80 centimeters, it is perfectly suitable for lighting larger interior spaces. The product is available in white and black colors.
